

## **Listing of Countries by Department of State Regional Bureaus**

The USG in its commitment to promote transnational defense cooperation and to encourage U.S. defense firms to submit applications for multiple destination marketing licenses is providing the following listing of countries arranged geographically by the six Department of State Bureaus. The listing should also assist registered companies in preparation of agreements (i.e., sales or marketing territories). It is suggested that applications be submitted for multiple destinations when the countries share common requirements and foreign policy considerations and that territories in agreements could be arranged by regions. Requests for multiple destination licenses when these factors are not common, may be submitted, but may take longer.
